Hi All,

Just wanted to let you all know that we made the August 1 deadline! I notified the grant specialist on Monday morning. It did take us a little over 3 business days to fill out all the forms and get all the necessary signatures on our end, so that's good to know for the future. Ideally, it would be good to get the package from your office in late May/early June as was done in 2015. I can hand in my work for signature before the pass through waiver is approved.

Rik, I'm passing along last year's work assignment for Abt's economic analysis. Can you please do a cut and paste to create a new WA for the new cost analysis projects in 2017? Ali (the work assignment manager) from HQ thought he would need to have it in hand by the end of next week to make sure we can obligate the \$100,000 of in-kind services as soon as possible.

Thanks,

Matt

Thanks. Hope that is sufficient. And thanks for bugging me about this and moving so fast — as well as for the remarkable “Team Meza” who jumped on it and submitted it in record time! I owe you all at least a cup of coffee if not an appropriate off-site beverage sometime!

Rik,

Thank you. I forwarded your request to the Grant Specialist for your application, Maria Roverso.

Matt

Matt-

With the exception of \$45,806 for the support of the Sea Grant Fellow the projects categorized as contractual in our budget are actually subawards. The \$45,806 will be in a contract with the Sea Grant program . So please move the remainder - \$359793 - out of the contractual category in the budget and treat them as subawards. Our submitted work plan already identifies the projects as "sub-grants".

Please let me know if you need any additional information from us to process the award.

Thanks
Rik
